INTRODUCTION

First off, thank you very much for downloading the First Eastern Counties Repaint Pack, which features a variety of liveries that are carried by the First Eastern Counties Fleet

First Eastern Counties is part of a bigger group, part of First East of England, which covers Eastern Counties and also Essex. The main areas for Eastern Counties are Norwich, Great Yarmouth, Lowestoft and Ipswich, with their main core area being at Davey House in Norwich. Before the main HQ of Eastern Counties being transferred over to Norwich, it used to be located at First Essex's Chelmsford Depot. A smaller depot is also located at King's Lynn which is only for the Excel, which stretches from Norwich to Peterborough

There are many brandings that are featured in First Eastern Counties which include Ipswich Reds, Coastal Reds, coastlink and the Excel. Norwich features coloured lines, such as Pink Line 11/12 or Charcoal Line 40/41/X41, however, due to the rebrand of FirstGroup, this may be phasing out

Vehicle Requirements

To have the full experience with this Repaint Pack, you will need the following requirements:

- Masterbus Veiling
- Studio Polygon Lite
- Studio Polygon 400MMC
- Masterbus Gen 3
- Blueprint Productions Gemini

There are also HOFs included. To have the full immersion with these HOF Destinations, it's recommended you have these following maps:

- Westcountry 3.03
- Cotterell (Use WC3.03 HOF for these destinations)

More info about the HOFs are available in this readme

The links to all these vehicles will be included in the First Eastern Counties Download Page on Semaphore Simulations and on the final page of this readme

DOWNLOAD INSTRUCTIONS

For the repaint to be fully optimized and working, you will need to follow these instructions on how to install the Repaint Pack.

Any small error will cause the Repaints to not work and will become defunct.

1. Open up the .zip file in Windows Explorer/My Computer. Holding the left mouse button, drag a box around ALL of the folders in the download so they are highlighted then select "Copy" from the pop-up menu
2. Open up a New Window and navigate your OMSI 2 directory. Right click and then select "Paste" from the pop-up menu. Be careful to not paste it in the wrong folders, here's the directories below:
C:\Program Files (x86)\Steam\steamapps\common
C:\Program Files\Steam\steamapps\common
3. You will likely get another pop-up, asking permission to merge or overwrite the existing folders. You must click "Yes to All", "Yes, do this to all current items" or similar. If you have not been asked this, then you have pasted in the wrong directory. Re-do steps 1 and 2 for this

Livery Selection

Now we move on to the Livery Selection. When you have officially installed the Repaint successfully after you've followed the 3 steps in the previous page, you will be able to drive the vast variety of liveries that are included in this Pack. Below is the directory of where the repaints will be when opening up the OMSI 2 Vehicle Selection Menu:

- **B7RLE Options**

Manufacturer: [MS] Masterbus

Type: Veiling 2 - B7RLE (12.1m/Bonded)

* 2 seat and logo variations available on the Ultraviolet Livery on the MS Masterdeck

** Different options available on Ex-South Yorkshire Streetlites

HOF Files

Included in this pack is a HOF Files, designated for the Westcountry and Cotterell Maps. Designed in a First Eastern Counties style for the closest immersive experience possible on all the designated vehicles on this pack.

The usual routes for each of the 2 maps are still available and work just like their original HOF Files, and there's also some other special Not in Service and a number of special destinations, also designed in an Eastern Counties style. These special generic destinations are included as follows:

- Special Service
- Private Hire
- Engineers on Test
- Rail Replacement
- Driver Training
- Park & Ride Shuttle
- Shuttle Service
- Staff Shuttle
- College Bus
- School Bus
- Contract Bus
- Bus Full
- Proud to Support Pride
- Coastal Clipper
- Clipper Cabriolet

Cotterell Destinations are also available on the WC3.03 HOFs

Originally, this pack was also going to feature Lincolnshire HOF Files, however, due to template changes on MS Products, this release will not feature the Lincolnshire HOFs, but will be later added in a future update

Many thanks to AlexCee for creating the bitmaps as closely related as possible

CREDITS

Without these people, this repaint pack would not have been possible. I thank these people for make this Repaint Pack as possible as it can be:

- EssexEclipse2 - Pack Contributor
- Zak Nelson - Providing the reference diagrams for Norwich Pride 69543
- JKMDodger - Helping out with the Norwich Pride Repaint and providing Gemini Floor Textures
- AlexCee - Making the destination bitmap files and HOFs while also testing them, and testing the B7RLE Repaints, as well as suggesting the pack itself
- Chilterntravels - Testing various Streetdeck Repaints
- Twiggy_the_tree - Testing 10.8m Cummins Repaints and HOFs
- Magiccherryx - Testing the HOFs and B7RLE Repaints
- MetDoppler - Providing branding reference for Coastal Clipper

REQUIREMENT LINKS

This page features the links for the required vehicles for this repaint pack to fully function properly. It's best to have all requirements for the best experience.

REDISTRIBUTION

Lastly, we move on to the repaint distribution. As it suggests, this Repaint Pack is meant to be uploaded on Fellowsfilm or Semaphore Simulations and must NOT be uploaded anywhere else without prior permission from EssexEclipse2

Textures used in this Repaint Pack must also **not** be used without prior permission from EssexEclipse2

If you do wish to use the Textures that are in this Repaint Pack, please message me via Fellowsfilm (EssexEclipse2). Explain in full detail what bit of texture you would like to use and make sure you give full credit to me if by chance you use a piece of Texture from this Pack

As with the re-uploading, this Repaint Pack will **only** be uploaded onto Semaphore Simulations **only** and should **not** be uploaded onto any other 3rd-party Websites without my permission. Please message me if you see anyone doing this, but I will make sure they have permission first before doing the sanctions
